

6th Grade Math CCSS

- Common Core State Standards

6th Grade Math Domains:

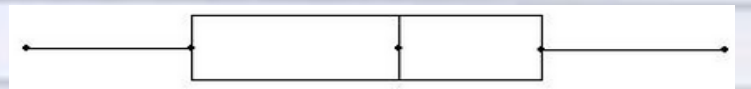

*Ratios & Proportional Reasoning 3:4

*Number System 7 > -8

*Expressions & Equations $5x + 2$

*Geometry $A = \frac{1}{2}bh$

*Statistics & Probability

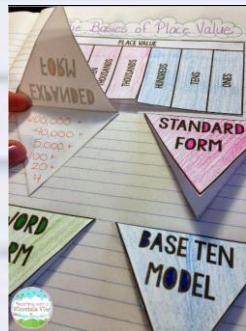

Math Vocabulary = Important to Math Success

- If you don't understand the vocabulary in a math word problem, then you won't know what the problem is asking.

Vocabulary Strategies:

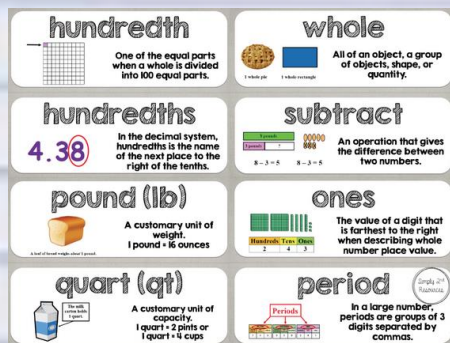

*Interactive Notebook

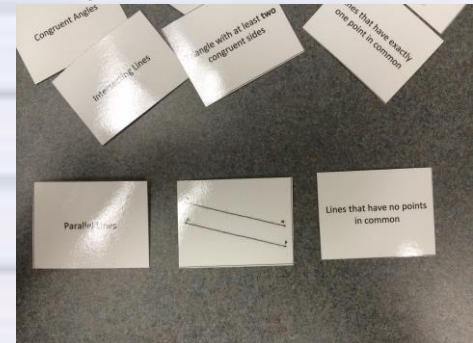

*Marzano/Frayer Model

Definition A whole number with exactly two divisors (factors)	Characteristics • 2 is the only even prime number • 0 and 1 are not prime • Every whole number can be written as a product of primes
Examples 2, 3, 5, 7, 11, 13, 17, ...	Non-Examples 1, 4, 6, 8, 9, 10, ...

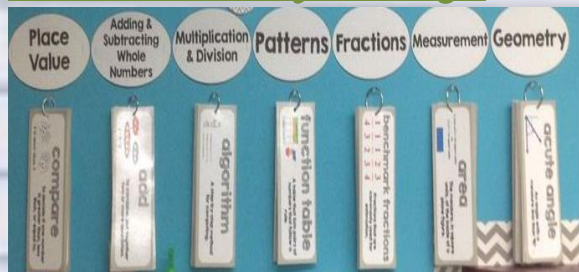

*Flash Cards

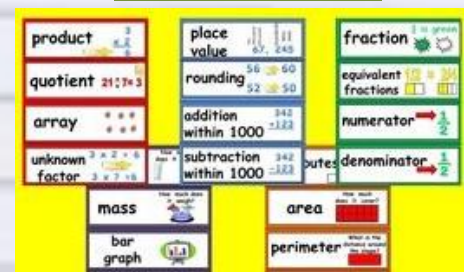

*Memory/Concentration Game

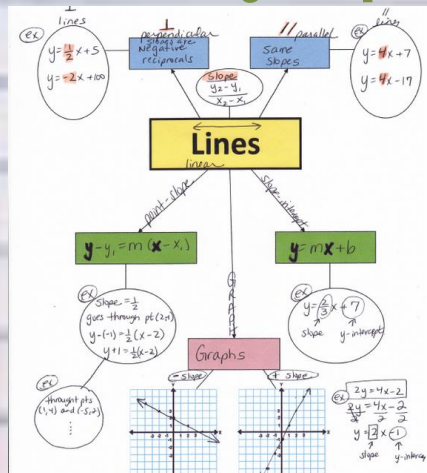

*Vocabulary Rings

*Word Wall

*Learning Maps

*Math Games
